

UNIVERSITY OF UTAH.

Chapel exercises will be conducted next week by Elder John M. Whittaker. Instructor John J. McClellan has resigned his position as teacher of vocal music in the University, and Mr. Alfred Best has been employed to fill the vacancy.

Professor Richard R. Lyman delivered a lecture before the Parents' club last evening. His subject was "Some defects in the education of our boys and girls."

At Normal Society yesterday the following program was carried out: "Something" Harold Goff. "The English Cabinet System" Maud Briggs. "The English Cabinet System" Dr. J. E. Talmage. "The English Cabinet System" Owen Carter. "The English Cabinet System" Ellen Tibbets. "The English Cabinet System" Last night the "Social League" went on a skating party.

Miss Florence Perry, '99, was operated upon for peritonitis Wednesday morning at the Holy Cross hospital. She is doing as well as can be expected.

Fifty drawing boards are being made in the University shops for the use of students in mechanical drawing during the coming half year.

Six of the engineering students will take up the study of structural mechanics Monday, Feb. 3.

Last night the question: Resolved, "That the English Cabinet System of government is preferable to our Congressional Form," was debated at Zeta Gamma.

At a class meeting Thursday the Fourth Year Normals appointed a committee to arrange for a dance to be given in the near future.

The roof is now on the new museum building. The basement is finished and the upper rooms are being plastered.

Next week Instructor Evans goes to Beaver, where he will address the teachers of Beaver county on the subject of drawing.

Professors Stewart and Allen speak very highly of the reception given them at Pleasant Grove last Sunday night.

"They will deliver their illustrated lecture at the Fourteenth ward, Feb. 2, and at Mill Creek Feb. 8.

Instructor Alfred Best gave a vocal solo at devotional exercises Tuesday morning.

Professor G. M. Marshall has been appointed Deputy State Superintendent in place of Dr. J. M. Tanner resigned.

Mr. Robert Garner was elected a member of the '03 executive committee last week in place of Mr. Fred Lamb who has withdrawn from school.

The '03 boys have organized a glee club. Twelve have joined and instructor Best is drilling them.

Last night the "Orphans" gave a class social in the normal building. The program was as follows:

Vocal solo Priscilla Livingston. Piano solo Sarah Coulam. Refreshments.

Music Mandolin and Guitar Club. Piano solo Ruby Garnett. The chaperones were Mrs. J. T. Kingsbury, Mrs. D. R. Allen and Mrs. H. L. Holmes.

Refreshments were served by the Franklin company. The committee on arrangements were Margaret Savage, Little Smith, Mattie Duncan, Grace Livingston, Leo Butler and Davis Leck.

On Monday the Engineering society will give the following program:

The Menet Electric Lamp, B. R. Tibbey. Biography of H. A. Roiland. Dr. J. F. Merrill. Reclamation of Mississippi Swamp Land. G. S. Schow. A Deep Drill. James Wade.

Professor Richard R. Lyman will spend next summer at the University of Chicago and the following winter at Columbia, N. Y., pursuing his studies in mining and civil engineering.

Instructor Best conducts the singing at the chapel exercises, Thursday morning he was given the period for practicing songs.

Mrs. H. R. Driggs entertained the students who are here from the Branch Normal last night.

UNIVERSITY TRAINING SCHOOL.

Principal J. E. McKnight was detained at home yesterday on account of sickness.

On Wednesday the pupils of the first grade served luncheon from their domestic science lesson. They invited Dr. Kingsbury, Professor Stewart, Supervisor Thomsen and Principal McKnight.

The training school library has just received an addition of one hundred volumes. The books are chiefly along the line of history and geography.

Supervisor Bond is working on a plan whereby manual training can be introduced into the country schools with very little expense. He thinks the materials can be paid for from the sale of articles made by the students. The sale of the article will be a strong incentive for the pupils to do efficient work.

Architect Dallas was shown through the training school on Monday by Prof. Stewart.

The pupils of the upper grades in nature study have been studying the cause of the recent fog.

They are corresponding with the pupils of Professor John H. Andrews, of Arbor Vitae, Wis. Last week they received a bundle of letters on the subject of nature study. The letters were distributed among the pupils to be answered and returned.

The girls of the seventh grade are studying sewing as related to the sewing machine.

SALT LAKE CITY SCHOOLS.

Miss Morris of the Whittier spent the greater part of Wednesday with Miss Little of the Emerson.

Supervisor Wetzel was a very welcome visitor at the Riverside the past week. He spent Thursday and part of Friday looking over the work, giving assistance to teachers and pupils.

A very interesting meeting under the direction of Miss Pollock on Wednesday afternoon. Miss Scholes of the Grant school and Miss MacMaster of the Hamilton, conducted with great skill model lessons in reading which were very interesting.

Superintendent Christensen visited the Lincoln on Monday. The sixth grade received some valuable suggestions from him upon the industrial interests of our large cities.

The teachers of the sixth, seventh and eighth grades are soon to be supplied with copies of Griffin's arithmetic.

Principal A. E. Eaton visited the Lincoln by invitation on Thursday, and

explained to the pupils the several courses of the High school.

Miss Edna Davis gave an interesting talk to the Fremont teachers last Monday, on Anthony Van Dyke and his paintings.

Miss Morf, substituted for Miss Rees, at the Wasatch this week.

Superintendent Christensen was a visitor at the Webster on Monday, attending the teachers' meeting there, and giving some very helpful suggestions.

Visitors at the Riverside the past week were Mr. C. A. Ek, Mrs. Clausen and Mrs. Floyd.

Mrs. Brook visited the primary grades of the Emerson on Wednesday.

State Superintendent Nelson has been invited by Superintendent Christensen to address the various parents clubs of the city, and has consented to do so.

The principal and teachers of the Jackson school were delightfully entertained at the home of Miss Hall last evening. Principal Bradford was commander of the forces, and he is a first-class artist at entertainments.

UNION SCHOOL NOTES.

Miss Pollock visited the Union this week.

The teachers and pupils of the Union school will entertain parents and friends on Friday, January 31. During the first hour they will visit the rooms where the regular work will be carried on. The next half hour they will adjourn to the large assembly room to listen to a general program given by the children of the different rooms.

Miss Williamson, of the Irving, lunched with Miss Lode, of the Union on Thursday.

Three of the teachers of the Union found new desks awaiting them Monday morning.

Each member of the graduating class from the Union expects to enter High school.

Mr. Elliot substituted for Miss Dixon of the Union during the week.

HIGH SCHOOL NOTES.

Most enjoyable programs were held in the assembly rooms Wednesday morning. In the senior assembly the Rev. Dr. Barrows gave an interesting address on Samuel Adams, relating his biography and telling how Mr. Adams did not win the credit of doing things. He related how some men told Mr. Adams that he deserved credit for many things he had done, but Samuel said no; it was his brother John.

In the freshman assembly a very pleasing piano solo was rendered by Maud Williams. She responded to an enthusiastic encore. Mr. Baldwin gave a very interesting political speech illustrating politics as medicine. He said that according to the laws of the state now, we would all become voters. Mr. Baldwin said that our government is the best in the world, yet we are not governed in the best way. He said that three years ago a bill was passed for \$500,000 for a new postoffice, but the plans have not been made yet and it would not be built for four or five years to come. Mr. Baldwin said that the question of the abilities of men were not considered before they were nominated for offices in the political parties, but if they were not honest they stood a better chance of being nominated than the honest men. He said that men of different political parties would stand around the polling places and sing out "Don't scratch your ticket but vote the straight one." He said it was the best way to scratch the ticket and vote for the best men. He said it was right to become citizens before politicians.

On Tuesday, Miss Claranah gave a test on common errors to her freshman English class.

Miss Peterson's first year Latin pupils are reviewing the month's work.

On Friday Miss Paine's algebra class will have an oral contest in factoring. Fred Hale will be leader on one side and Alice Butterworth on the other.

The juniors held a very important meeting Tuesday.

A picture entitled "The First Glimpse of Salt Lake Valley," by H. L. A. Culmer is now in the shadow box.

Lillian Connelly is drawing a study of roses in oil.

F. Moore has done some good drawings in ink mostly book covers.

OUR BUSIEST MEN.

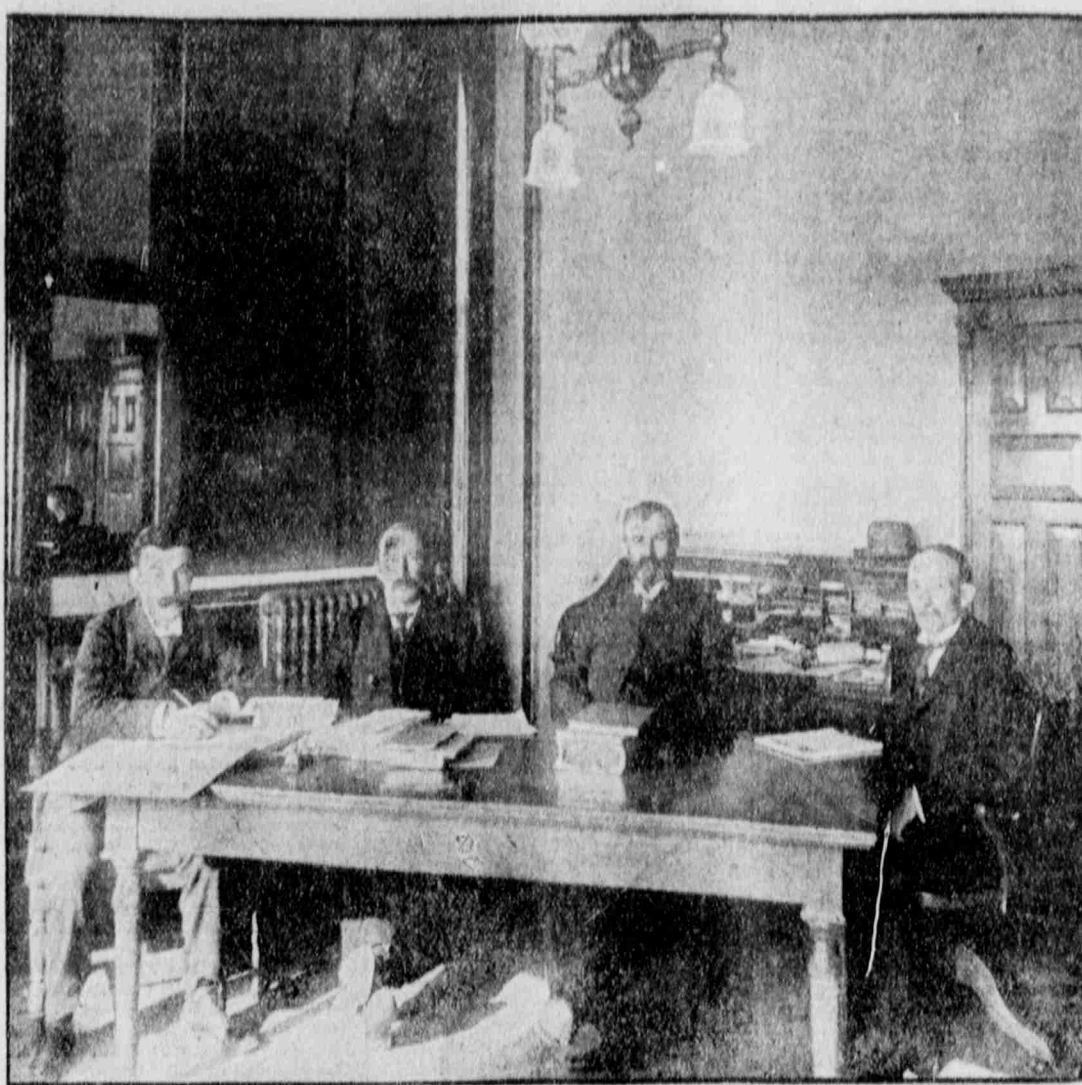

Photo by Harry Shipter.

SALT LAKE COUNTY COMMISSION AND CLERK.

It is generally conceded that the public officials of this city and county have plenty to do—that they are busy men. A group of this character is shown this week in the above half-tone snap shot of the Salt Lake county commissioners and clerk. They are seated around the table in the commissioners' office where all regular business of this branch of the county is transacted. Chairman James H. Anderson occupies the place at the head of the table on the right, while Commissioners Harker and Horne are seated between him and County Clerk James, who is observed on the extreme left with pencil in hand, ready to record the proceedings of the board.

L. D. S. UNIVERSITY.

Three business students have been placed in good positions this week.

Principal Hinkleley was absent on Thursday and Friday on account of the death of his little daughter, Grace.

A petition for a new class in commercial law was granted this week, and the class was organized on Thursday with seventeen members. Instructor Bird is the teacher. The higher class meets from 12 to 1.

The athletic association has been granted the first option on dates for parties, and control of the lower dressing room of the gymnasium. There are three convenient dressing rooms, besides the large hall.

The students of the advanced section of shorthand are taking up court reporting. They were excused on Wednesday to attend the hearing of Mortensen. The president has recently shown to them the necessity for English study, in connection with shorthand.

The regular evening class in Book of Mormon, held under the auspices of the Y. L. M. I. A., will begin again next Monday evening at 8 o'clock at the usual place.

Arthur W. Morrison, a student of the business department, left school on Wednesday last to prepare for a mission to Denmark. Ira Rudy, a missionary student, will soon leave for a mission to England.

Professor Willard Done met with section 1 of the Book of Mormon class on Tuesday. He spoke to the class very entertainingly for a short time on the value of theological training.

Professor John M. Mills has been given a leave of absence to go East during the coming year. He will go to the University of Chicago in June next and from there to Harvard in September.

At devotional exercises last Wednesday Arthur H. Derbyshire, in behalf of the business class of last year, presented the business college with sixty-five dollars worth of books on economics; and Miss Alice McLaughlin, in behalf of ten young ladies who were here last year, presented the university with a beautiful Bible.

Among the visitors of this week were Mr. T. B. Smith of Pocatello, Misses

Olive Pixton and Rose Heath, Cynthia Blamires, Alice McLaughlin, Mr. Young of the firm of Young & Young, Prof. W. M. Wolfe and Miss Lottie Greenwood of the B. Y. academy.

BRIGHAM YOUNG COLLEGE.

Logan.—Professor Ridges will go to Salt Lake City tomorrow, representing the Brigham Young College Athletic association in the meeting to be held in the Latter-day Saints university for the purpose of effecting an organization of the athletic associations of the state.

A fine new leather horse has lately been added to the gymnasium furniture.

Manager David Allen, of the college basketball team, expects a game with a Salt Lake team in the near future.

Mr. Allen thinks his team is in very good trim, and can put up a very good game. The athletic association recently purchased a set of very nice suits for the "basket ballers."

Mr. H. A. James of this city, has donated to the college library a number of French works. These books were formerly the property of his son, Henry, who died while fulfilling a mission in the Netherlands.

Other valuable gifts have been made previously to the library, and the collection authorities are very much pleased that the idea of endowing our institutions seems to be growing and are in hopes that the college may be the recipient of other valuable gifts.

Messrs. Geddie of Preston, and Hall of Colorado, brother of Professor Hall, were visitors at the college today.

Professor Hall will conduct a two-days institution in Preston on Friday and Saturday.

A series of debates between the college classes has been a very interesting feature of the past week. Last Friday night the first year students defeated the missionaries in affirming that McKinley was a greater statesman than Lincoln. On Tuesday night the second year students suffered defeat from the thirds, who affirmed that Washington had done more for his country than had Lincoln. There are other debates to follow, which will be very lively and interesting. The ad-

vanced students take the rostrum next.

President Linford will visit Millville and deliver a lecture next Sunday evening.

Flag raising by some of the classes has been attended this week by some pretty warm feelings. The 1902's think their flag has first right to points of prominence, and the optionals and specials have sought to place theirs in advance. The 1902 waves today.

Miss Maggie Jones, 1902, is now suffering from an attack of typhoid fever. Miss Jones has the sympathy and best wishes of the faculty and students.

Midyear examinations begin on Saturday, January 25.

Work is progressing nicely.

AGRICULTURAL COLLEGE.

Logan.—Hon. Thomas Judd of St. George, and Mr. Chas. Bower of Provo, are making a tour of the northern part of the state in the interests of the state board of horticulture. They were at the college Wednesday and Thursday, and on Thursday morning, Mr. Judd gave the students a good ringing talk at chapel exercises.

The hall given by the entertainment committee on Saturday evening was one of the pleasantest and most satisfactory ever given at the college. Most of those present were students and the attempt to make the new students at home and forward a general acquaintance was highly successful. The profits were about seventy-five dollars, which will be used to secure good lecturers or other means of entertainment.

Professors Wildsoe and Merrill went to Layton Tuesday to investigate on the ground the cause leading to the deaths of animals fed on sugar factory pulp. They returned on Wednesday fully convinced of the correctness of their first conclusion that the animals died from the effects of lead in the food, it having been transported in cans used for carrying lead.

Saturday evening, February 1, the literary societies will give their first joint public meeting. The program promises to be an interesting one.

Professors Wright and Swensen returned Wednesday from Morgan county, where they held some very successful farmers' institutes.

New experiments are organized in feeding sheep the by-products of the sugar factory, for effects on both fat and wool, and for feeding horses alfalfa, for effects on the general health, and especially domestic effects.

Photographer Dryden, who by the way has made a fine reputation with his camera, is preparing a full set of lantern slides to illustrate lectures on the college and on various subjects in some of the departments of instruction.

Professor Engle's lectures on sociology Saturday afternoon in the faculty room are well attended and enjoyed by such of the faculty as find time to attend them. The last meeting of the

Sociological club was at Rev. Mr. Clemenson's.

BEAVER BRANCH B. Y. A.

Beaver City.—An enjoyable party was had last Friday evening at which there was a good attendance.

On Sunday afternoon the school en masse attended religious services at Beaver, the academy choir joining with the Beaver choir in furnishing music for the occasion.

Miss Mamie Ollerton of Garowan, former teacher here, was a visitor last week, being on her way to Provo to complete her course at the academy.

BRIGHAM YOUNG ACADEMY.

Provo, Utah, Jan. 23.—Prof. W. M. Wolfe spent Tuesday in Salt Lake on business connected with the school.

Prof. Hickman lectured in Linden on Sunday evening. On Friday he will go to Beasley court to lecture before the teachers' institute.

On Tuesday the theology hour was given to the various domestic ward officers. All students are enrolled as members of the four wards.

Mrs. Freda B. Cluff began her work in education this week. Her classes are organized and working hard to make up for the disadvantage of beginning late.

Four new specimen cases have been made by the boys of the wood-working department and are now occupying prominent positions in the natural science laboratory.

"The verb; its classification and inflection," was the subject of a most interesting lesson given by Prof. Swenson before the Pedagogium on Thursday evening.

Miss Edie Howe one of our most able and prominent music students, has been engaged as assistant piano teacher. Miss Howe has a host of friends who are confident of her success.

Great enthusiasm is now being manifested in athletics. Class competition seems to be a great incentive to action, and every day sees the campus crowded with those practicing for the various events.

Several new typewriters have been received and more have been ordered to accommodate the many students desiring that course.

More apparatus has been received for the physical laboratory this week. This department is in a very prosperous condition and is calling on the boys of the wood-work department for more cupboards in which to keep their apparatus.

Prof. Miller has arranged for daily rehearsal for the brass band and orchestra. The boys are doing excellent work in this line and their enthusiasm is increased by the hearty applause and appreciation of their fellow students.

Dr. J. M. Tanner visited Sunday school last Sunday and expressed his satisfaction at the way in which it was conducted. The attendance has greatly increased since last semester. Several new classes have been organized and are working earnestly with the older classes.

Brigham Smoot, of Provo City, has been engaged to assist in the chemistry department. This will relieve Prof. Brown, who is needed in pedagogical work. The classes in pedagogy, theory of teaching and psychology are specially large this semester.

The Utah County Teachers' association held its regular monthly meeting in the academy on Saturday. President Brimhall and Prof. Evans and Mrs. Stevenson of Salt Lake were the principal speakers. The teachers took great pleasure in examining the black-board drawings of our normal students.

A ladies' chorus and a male chorus have been formed from the advanced music class. These choruses will furnish the music in devotional two or three times a week to relieve the regular chorus. The students are anxiously waiting for their first appearance as some very fine music is expected.

Miss Gates' concert, her sweet voice and charming manner, and her generosity toward the school she loves, have been the subject of much comment during the week. Her gift of \$1,000.00 is highly appreciated by both students and patrons. The love and best wishes of the entire school go with her on her tour through the east.

Students are very enthusiastic about the concert to be given here next week. The Symphony orchestra company of Chicago is an organization of considerable fame. There are sixty-five members in the orchestra including some of the most noted soloists in the United States. As the company appears only five times in Utah, the students consider themselves fortunate in having one recital in Provo.

The Domestic Science department which has lately received money for its enlargement, is constantly growing. The classes are larger this year than ever before and more interest will be manifested when the equipment is improved. In a few weeks the girls will give dinners of four and six courses and students who are keeping house will be pleased to patronize that department. The girls declare that they appreciate Miss Gates' gift more than any other members of the school.

The academy does not acknowledge itself mistaken in regard to its being the first school west of Chicago to adopt Dr. Dewey's plan of having specialists teach in the grades. In the Salt Lake grade schools the supervisors are specialists in the various subjects. In the academy grades the specialists teach every day. Every lesson in English this year is taught in the sixth and seventh grades is taught by a specialist in that work. And so with other studies. Not supervisors but

a regular specialist teacher for every subject and every lesson taught concerning that subject. The academy claims the distinction of having specialists teach in the grades and does not include high schools while claiming that distinction.

A Horrible Outbreak.

"Of large sores on my little daughter's head developed into a case of scald head," writes C. D. Labell of Morgan, Tenn., but Bucklen's Arnica Salve completely cured her. It's a guaranteed cure for Eczema, Tetter, Salt Rheum, Pimples, Sores, Ulcers and Piles. Only 25 cents at Z. C. M. I. Drug Dept.

The properties of BALLARD'S SNOW LINIMENT possess a range of usefulness greater than any other remedy. A day seldom passes in every household, especially where there are children, that it is not needed. Price, 50 cents. Z. C. M. I.

New England CONSERVATORY OF MUSIC. The leading musical institution of America. Founded 1835. Unsurpassed advantages in composition, vocal and instrumental music, and diction. George W. Chadwick, Musical Director. Pupils received at any time. For prospectus address FRANK W. HALE, General Manager, Boston, Mass.

M'GOVERN AND SULLIVAN TRAINING.

DAVE SULLIVAN AND TERRY MCGOVERN BOXING

Dave Sullivan is training hard for his coming fight with Terry McGovern. There are many who think that he has excellent chances of knocking out the "Terror" and being the logical opponent of Young Corbett for the championship.

Terry McGovern looks forward to his fight at Louisville with Dave Sullivan as a means of showing the sporting world that he is not "played out" but is deserving of another fight with Young Corbett.
